**Motion**

Executive Director Bondy explained that the Agency's Stakeholder Engagement Plan has a self-imposed annual review requirement. He reviewed the plan recently and prepared recommended plan edits. He recommended approval of the plan update.

The Board briefly reviewed the proposed updates

Public comments:

Mr. Burt Handy stated that Ventura Coastal LLC, a citrus processing plant located at 2325 Vista Del Mar and Casitas Municipal Water District (MWD) should be listed in the plan.

Executive Director Bondy responded that the Agency is unaware of any groundwater pumping by Ventura Coastal, LLC, so they are not included. Concerning Casitas MWD, he explained that, although the Casitas MWD service area does overlap with the Basin, Casitas MWD does not operate any wells or a public water system within the Basin. Ventura Water takes custody of water purchased from Casitas MWD at location outside of the basin. He added that, however, there would be no harm associated with listing Casitas MWD in the plan. The Board had no objection of adding Casitas MWD to the plan.

Director Everts asked about outreach to the local tribe. Executive Director Bondy explained that he had been contacted by an attorney on behalf of the Barbareno-Ventureno Band of Chumash some time ago. He said he would follow-up with the contact.

Director Everts encouraged the Agency to continue its efforts on outreach especially to disadvantaged communities.

No further comments or questions from the Directors.

**9c Fiscal Year 2019-2020 Budget Report**

**Motion**

UWCD Senior Accountant Ambry Tibay provided a summary of the year-end budget report as presented in the agenda packet to the Board. Executive Director Bondy briefly explained the reasons for the variances between the budget and actuals. Executive Director Bondy noted that he has asked Agency Counsel to participate more directly in Agency matters now that the planning process is moving toward the more critical phase. Legal fees, which have been significantly under budget, should be expected to increase as a result.

No further comments or questions from the Directors.

No comments or questions were offered by the public.

Motion to receive and file the Fiscal Year 2019-2020 Budget Report, Director Everts; Second, Director Rungren. Roll call vote: four ayes (Everts, Mobley, Rungren, Shephard), none opposed; one absent (Chambers). Motion carried 4/0/1.

**9d Intera, Inc. Work Order No. 6 for Monitoring Well Coastal Development Permitting**

**Motion**

Executive Director Bondy explained that the proposed work order is intended to cover the activities necessary to apply for a Coastal Development Permit for the proposed monitoring well at the City's wastewater treatment plan. He explained that he recently received further clarification from the City concerning the permit requirements. Based on those clarifications, the optional tasks listed in the proposal are not needed. Therefore, he recommended approving the work order for \$13,110.00 not-to-exceed with \$5,000 contingency.

## Motion Item No. 9a

**DATE:** November 19, 2020  
**TO:** Board of Directors  
**FROM:** Executive Director  
**SUBJECT:** **GSP Monthly Update (Grant Category (c), Task 3 and (d), Task 4)**

### **SUMMARY**

The following is a monthly status update on the Groundwater Sustainability Plan (GSP) and associated grant. An updated GSP development schedule is attached for discussion (Attachment A).

### **GSP Development:**

#### 1. **GSP Status:**

- a. The Executive Director and Intera continued evaluating information relevant to developing sustainable management criteria for the GSP.
- b. UWCD continued working on finalizing the groundwater flow model for GSP development and other uses. As of early November, the model has been approved for use. UWCD staff is making final preparations to render the model available for use in the MBGSA and Fillmore-Piru GSA GSP planning processes. This model is expected to be available very soon.
- c. The Executive Director and Intera prepared model inputs for simulations to evaluate future baseline conditions with climate change. The inputs were provided to UWCD on November 11 and a GSP modeling kickoff call was held with UWCD staff that same day.
- d. Three initial model simulations are needed to evaluate future baseline conditions in the Basin with varying degrees of climate change impact. UWCD has committed to completing one of the three runs by mid-December. Staff proposes to run the most conservative simulation first (future conditions with 2070 climate change conditions). If this simulation suggests that basin can be sustainably operated with projected groundwater pumping demands, no further modeling would be required. If the simulation results indicate that projected pumping is not sustainable, a series of additional simulations will be performed to estimate sustainable pumping volumes under 2030 and 2070 climate change conditions. This work would be completed in the February – March timeframe.

2. Outreach:

a. No activity since last Board meeting.

3. GSP Development Schedule: The updated GSP Development Schedule is provided in Attachment A. The schedule has been modified to account for the updated modeling schedule from UWCD.

Sustainable Groundwater Planning (SGWP) Grant:

1. Invoices:

a. Grant Progress Report and Invoice No. 5 were submitted to DWR on July 14. DWR approved the invoice on October 1. Payment in the amount of \$53,253 is expected soon.

b. Grant Progress Report and Invoice No. 6 were submitted to DWR on November 5 and are pending DWR review. Payment in the amount of \$85,246 is expected 1-2 months after approval.
